

Dear colleagues,

First of all, I wish you a happy new year 2020!!

The Institute of Technology of Saint-Dié, which is an institute of University of Lorraine, France (F NANCY43), would like to welcome an administrative erasmus+ job shadowing staff mobility during the year 2020.

This five-day mobility would take place from February to July 2020 and/or from September to November 2020 and would be structured around the following theme: student services and administrative management at faculty level. The language used would be English.

If one of your staff is interested in this training, they can then contact me and I will forward to the Institute of Technology of Saint-Dié.

We look forward to hearing from you.

With kind regards,

--
