

Information Sheet on Event Catering at the University of Mannheim (as at 12 October 2022)

1. As a general rule, the distance of 1.5 meters must also be kept when eating at tables.
2. Standing height tables may only be used by a maximum of three people at a time.
3. When waiting in line at the buffet, the minimum distance to the next person in line must be kept.
4. When eating at the tables, attendees may put down their mask. The same applies when eating at the standing height tables.

Generally, the event organizers must ensure that the rooms for the event are large enough so that it is possible to comply with the distance regulations, taking into account the number of tables and standing height tables. In individual cases, the event may be held outside, either in whole or in part. This is strongly recommended if the framework conditions allow for an outdoor event (space is available, weather conditions, etc.)
