<p>Travel costs</p>	
<p>Compensation for study participants</p>	
<p>Other expenses</p>	
<p>Total budget</p>	
<p>Do you receive additional (external) funding for this project?</p>	

Disclaimer: I hereby certify that the information provided in this application is accurate to the best of my knowledge. I agree to inform the OSO immediately of any changes and amendments. I am aware that incomplete or incorrectly completed applications or applications submitted after the deadline will not be considered for the respective funding period.

A complete application consists of this **application form, a project proposal (max. 2 pages), and a short CV**. Proposals need to be written in such a way that it is easy to understand for scientists from all disciplines. Each person may submit only one research grant application per round as lead applicant. It is agreed that this application form and the accompanying documents remain with the OSO.

I have read and understood the University of Mannheim's Guidelines for Good Scientific Practice and Publication Guidelines and will comply with these rules. I am aware that it is my responsibility to ensure that collaborating researchers also adhere to these guidelines. If applicable, I agree to pre-register my research plans before collecting data. I understand that disbursed funds may only be used for the research project for which they were granted (funding of own position is not applicable) and can only be accessed for expenses invoiced within the funding period (1 January–31 December 2023); advances that have not been invoiced within the funding period must be returned to the OSO.

I commit to handing in a final 1-page report within the same time frame. I am aware that non-compliance with any of these rules may lead to a reclaim of funds, irrespective of other potential implications. I understand that funding can only be granted for as long as I am affiliated with the University of Mannheim (employee/accepted doctoral candidates).

If I receive funding from the OSO, I agree to the publication of the abstract of my project for the OSO website.
