Course evaluation

The course was **well organized**

The course content was illustrated with **examples**

The instructor’s **articulation** was **clear**

Information on the **board/screen** was **clearly legible**

The **pace** of the course was ...

The instructor was **motivating**

The instructor always seemed to be **well prepared**
The instructor showed a strong commitment during the lecture.

The instructor was available for discussing subject-related matters with the students.

The information on the board/screen helped me understand the course content better.

Additional documents and downloads (i.e. copies, scripts, recordings) were helpful to understand the course content.

The use of additional media (except overhead/board) was helpful.

Overall, I am very satisfied with the instructor.

The instructor stood out with very high teaching skills.

The instructor should receive an award for excellent teaching.

I have learned a lot during this course.

The course content is well aligned with other courses.

I feel that the course content is important for my future professional career.

The lecture fostered my interest in the course content.

Overall, I am very satisfied with the course.

Auswertungsteil der offenen Fragen

Overall evaluation of the course

If question 5.1 does not apply, which previous knowledge was missing?

- Programming knowledge about projects would be helpful with one preliminary lecture
- Web

Your suggestions

What did you like most about the course?

- It was eye opening
- Interdisciplinary perspectives (i.e., philosophical, software engineering)
- Structure of course
- Illustrations
- Professor had good knowledge

Structure was clear, very well prepared

Good teaching skills & lecturer was motivated
What did you not like about the course?

Too short!

Project "unnecessary" -> kind of annoying to have besides other obligations if it is not graded

High workload

- hard to anticipate content of exam

What are your suggestions for improvement?

Longer duration!
Please update video lectures

Either scratch project or make gradable again.

Maybe cut out the last one or two lecture. Combined with the project the workload is too quite high.

Please use online evaluation form. This is waste of paper and resources in general.
