### S031 - Hybrid Teaching Session / Conference with Videobar (Panacast) attached to Pillar

Please connect your laptop via **VGA or HDMI** to the **projection**. Connect the **USB** cable for the **video lecture/conference**. Start your **video session** on your laptop.

Inside your Zoom session click on the arrow to the right of the microphone.

The following window is displayed:

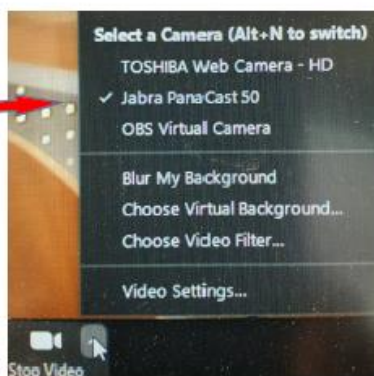

In the Microphone section select the correct microphone by clicking on **Jabra PanaCast50**.

In the Speaker section select the speaker of the videobar by clicking on **Jabra PanaCast50**.

Inside your Zoom session click on the arrow to the right of the camera.

The following window appears:

In the Camera section select the camera for video conferencing by clicking on **Jabra PanaCast50**.
