Skills relevant to Statistical Modeling in Psychology

At the Research Training Group “Statistical Modeling in Psychology” we are naturally interested in *your skills in mathematical and statistical methods and your modeling experiences*. Please name relevant courses you attended, experience you have, and other relevant competences:

In addition to your statistical modeling background, we are also interested in *your substantive science profile in Psychology*. Please sketch briefly the research areas and topics you have experience with so far:

Extra-Curricular Courses, Internships, and Work Experiences

If applicable: Please give details for *extra-curricular courses* you participated in:

If applicable: Please give details for *internships* you did:

If applicable: Please give details for *work experiences* you completed:

Conference Contributions and Publications

If applicable: Please give details for *conference presentations or posters* you contributed:

If applicable: Please give details for *publications* you (co-)authored:

Motivation for „Statistical Modeling in Psychology“ and Placement

Please write a *letter of motivation* explaining your current goals, career plans and reasons for your interest in a structured PhD program at the Research Training Group SMiP. Elaborate on your study plans and your research interests. The motivation letter should be in English and not exceed two pages (not more than 700 words).

Please add this letter of motivation to your pdf-documents.

If you want to participate in the SMiP program, but do not apply for a scholarship, please check the following box:

I have external funding and only apply for an association with the RTG SMiP.

Please specify your external funding (incl. name of primary advisor):

English language proficiency

As the official language at the Research Training Group SMiP is English, please give us some information regarding your *English proficiency*:

If you would like to provide any further information, please insert it here:

This is the end of the application form. Please save this form as pdf and send it via email to foerster@uni-mannheim.de before **midnight of 15 June 2024**.

Please remember to combine all documents asked for in this form into one pdf-file and to also attach this file to your application email. Alternatively, you can send your complete application via mail to Annette Förster, University of Mannheim, RTG SMiP, B6, 30-32, 68159 Mannheim, Germany.

Thank you for your interest in our PhD program.
