The Chair of Production Management is offering a part-time position as Research and Teaching Assistant / Ph.D. Position in Business Analytics and Operations Research (m/f/d) starting on flexible 2024.

The Chair of Production Management (https://www.bwl.uni-mannheim.de/en/stolletz/) in the Area Operations at the Business School of the University of Mannheim (Prof. Raik Stolletz) invites applications for a Ph.D. position.

Your tasks include:

The Chair's research focuses on the development of methods in Business Analytics and Operations Research, specifically:

- Performance analysis and optimization of stochastic systems,
- Applications of AI methods, or
- Combinatorial or nonlinear optimization

with projects in the analysis and optimization of manufacturing and service operations, for example airport operations, workforce planning, or management of distribution centers. Some projects are funded by industry partners or the German science foundation (DFG) with national and international collaborations. Beside the work on a research project, the Ph.D. student supports the team in teaching and administration.

Your profile:

The ideal candidate has completed or is nearing completion of their Master's studies in Business Analytics, Operations Management, Operations Research, Management Science, Computer Science, Industrial Engineering, Mathematics, or related fields, with a strong academic record. Candidates with advanced skills in business analytics, particularly in stochastic modeling, optimization algorithms, or artificial intelligence, are highly encouraged to apply. Proficiency in English is essential, while knowledge of German language is not required. In addition to working on the research project, the Ph.D. student will provide support to the team in teaching and administrative tasks, contributing to a collaborative and interdisciplinary work environment.

The University of Mannheim is one of the leading universities in Germany with approximately 12,000 students in five schools. Particularly in business and economics as well as in the social sciences the university ranks among the top institutions both at national and international level. More than 2,600 employees profit from an exciting work environment with numerous benefits.
