

The **Chair of Production Management** is offering a part-time position as

Research and Teaching Assistant / Ph.D. Position in Business Analytics and Operations Research (all genders)

starting on flexible in 2025.

The Chair of Production Management (<https://www.bwl.uni-mannheim.de/en/stolletz/>) in the Area Operations at the Business School of the University of Mannheim (Prof. Raik Stolletz) invites applications for a Ph.D. position.

Your tasks include:

The Chairs research focuses on the development of methods in Business Analytics and Operations Research, specifically

- Performance analysis and optimization of stochastic systems, or
- Combinatorial optimization and modern heuristics

with projects in the analysis and optimization in manufacturing and service operations, for example robust capacity planning given volatile demand in distribution centers or workforce planning. Some projects are funded by industry partners or the German science foundation (DFG) with national and international collaborations. In addition to working on the research project, the Ph.D. student will provide support to the team in teaching and administrative tasks, contributing to a collaborative and interdisciplinary work environment.

Your profile:

The ideal candidate has completed or is nearing completion of their Master's studies in Business Analytics, Operations Management, Operations Research, Management Science, Computer Science, Industrial Engineering, Mathematics, or related fields, with a strong academic record. Candidates with advanced skills in business analytics, particularly in stochastic modeling, are highly encouraged to apply. Proficiency in English is essential, while knowledge of German language is not required.

The **University of Mannheim** is one of the leading universities in Germany with approximately 12,000 students in five schools. Particularly in business and economics as well as in the social sciences the university ranks among the top institutions both at national and international level. More than 2,600 employees profit from an exciting work environment with numerous benefits.
