The Universität Mannheim is looking to hire a

Position at the German Business Panel
Doctoral student (f/m/d)

The German Business Panel (GBP) is a core project of the Collaborative Research Center „Accounting for Transparency“ (SFB/TRR 266). The GBP collects and analyses perceptions, expectations, and attitudes on accounting and taxation via surveys.

Responsibilities
- Opportunity for own research with the data of the German Business Panel.
- Prepare analyses and reports.
- Prepare data documents and codebooks.
- Build, clean, and manage datasets.
- Maintain contacts and guarantee of compliance with data protection.

Preferred Qualifications
Master’s degree in Business, Economics, Math, Computer Science, Statistics or related fields, or significant advanced coursework in these areas. Excellent research and writing skills. Knowledge of statistics/econometrics. Knowledge of statistical programming, particularly STATA or R. Experience with programs such as SAS, Matlab, and Python is also desirable.

What we offer
- An innovative and scientifically stimulating environment.
- A cooperative and communicative team.
- Opportunity to learn important skills in data science and analysis.
- Comprehensive insights to the practice of reporting and accounting of firms in Germany.
- Academics supervision of own research projects for qualification for Ph.D.

How to apply: Please send cover letter, CV, transcripts and certificates to rostam-afschar@uni-mannheim.de. The review process starts immediately.

As an equal opportunity employer, the University of Mannheim particularly encourages applications from women and persons with disabilities.

The University of Mannheim is highly recognized internationally for excellent teaching and research. With a staff of about 2,630 persons and about 12,000 students it is one of the largest universities in Germany. One of the university’s strengths in this task is its profile, which is characterized by the economic and social sciences. It is in these fields that the University of Mannheim has repeatedly been ranked as one of the top 20 European research institutions.

The TRR 266 Accounting for Transparency is a trans-regional Collaborative Research Center funded by the German Research Foundation (Deutsche Forschungsgemeinschaft – DFG). Our team of more than 80 dedicated researchers examines how accounting and taxation affect firm and regulatory transparency and how regulation and transparency impact our economy and society. We intend to help develop effective regulation for firm transparency and a transparent tax system.
