Selection Statutes for the Master's Program „Mannheim Master in Data Science“

as at 22 July 2016
(Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats) No. 22/2016, pp. 6 et seqq.)

1. amendment as at 15 December 2016
(Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats) No. 33/2016, p. 25)

2. amendment as at 15 March 2017
(Bulletin of the President’s Office (Amtliche Bekanntmachungen des Rektorats) No. 07/2017, p. 55f)

3. amendment as at 04 May 2018
(Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats) No. 12/2018, p. 8)

The present version is a non-official version including the aforementioned amendments. Only the version in the Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats) is legally binding.

In the German language version of these Selection Statutes, this sentence deals with the subject of gender-neutral language. For the English language version, this is not relevant and therefore omitted.

Section 1 – Scope

(1) The University of Mannheim has its own selection process for the master's program "Mannheim Master in Data Science". It is governed by these Statutes.

(2) Sections 2 to 4 of these Statutes apply to all applications, regardless of whether or not there is a limited number of study places or a selection procedure in place; an impediment to admission in accordance with section 4 subsection 2(2) is also considered an impediment to enrollment. By way of derogation from section 4 subsection 3, all decisions shall be made by the examination committee responsible for the master's program "Mannheim Master in Data Science" instead of the admissions committee if no selection process takes place.

(3) The regulations on admission and enrollment of the University of Mannheim remain unaffected.

Section 2 – Deadlines

(1) Applications for the fall semester shall be submitted by 31 May and for the spring semester by 15 November (definitive deadlines).

(2) Proof of sufficient English proficiency may be submitted by 15 August in case of an application for the fall semester and by 15 January in case of an application for the spring semester.

Section 3 – Form of the Application
Section 4 – Admission Requirements

Applicants for the master’s program “Mannheim Master in Data Science” (M.Sc.) have to meet the following admission requirements:

1. Applicants are required to have a bachelor’s degree from a German or foreign university or an officially recognized public university of cooperative education (Berufsakademie). During the program of study the applicant shall complete courses corresponding to a total of at least 48 ECTS credits in informatics, mathematics, statistics, or empirical research methods. ECTS credits awarded for an empirical final thesis shall be included in the 48 ECTS credits required. The bachelor's degree must correspond to at least 180 ECTS credits or have a standard period of study of at least 6 semesters or 3 years.

2. Applicants have to provide proof of sufficient English proficiency. The successful completion of a bachelor’s degree with English as language of instruction and examination of at least 50% of the courses and examinations or a University Entrance Qualification (HZB) from a school with English as the language of instruction serves as proof. If an applicant has obtained neither of the above, the following test results can serve as proof of English proficiency:
   a) Test of English as a Foreign Language (TOEFL) – TOEFL Internet Based Test (TOEFL iBT) with a score of at least 79 points; TOEFL Computer-Based Test (CBT) with a score of at least 213 points or a TOEFL Paper-Based Test (PBT) with a score of at least 550 points.
   b) Cambridge ESOL Certificate of Proficiency in English (CPE) to Level C or better.
   c) Cambridge ESOL Certificate in Advanced English (CAE) to Level C or better.
   d) The International English Language Testing System (IELTS) examination is accepted with a 6 or better band score (academic modules).
PLEASE NOTE:

English translations of Satzungen are intended solely as a convenience to non-German-reading students. Only the German text published in the Bulletin of the President's Office ("Bekanntmachungen des Rektorats") is legally binding. In the event of any conflict between the English and German text, its structure, meaning or interpretation, the German text, its structure, meaning or interpretation shall prevail.

e) Graduate Management Admission Test (GMAT) with a minimum score of 500 points.
f) Graduate Record Examination (GRE) General Test with at least 60% Verbal Reasoning and at least 80% Quantitative Reasoning.
g) Certificate of the language test offered by the "Universität Mannheim Service and Marketing GmbH" with a minimum level of B2 in listening comprehension, written language, spoken language and reading comprehension.

4 Only test results obtained no more than five years prior to the deadline in accordance with section 2 subsection 1 shall be recognized as proof. 5 Any other type of documents serving as proof of an applicant's English proficiency shall be considered sufficient if they can be recognized as equivalent.

(2) Applicants are eligible for admission to the master's program “Mannheim Master in Data Science” if they meet the following additional admission requirements:

1. 1Submission of the application in due time and form. 2If the bachelor's degree in accordance with subsection 1(1) has not been completed by the end of the definitive deadline defined in section 2 subsection 1 due to the fact that individual examinations have not been completed but it is anticipated that the degree will be completed in due time before the beginning of the master's program "Mannheim Master in Data Science", admission may be requested provided the applicant is able to prove completion of at least 130 ECTS credits. 3Within the definitive deadline defined in section 2 subsection 1, proof of the credits earned shall be submitted. 4In this case, admission is subject to the proven completion of the bachelor's degree in accordance with subsection 1(1) by the date defined in the official letter of admission or by the first registration for an exam at the latest. 5If proof is not provided in due time, admission to the master's program will be rescinded.

2. There may not be any impediments to admission; a particular impediment exists if an applicant has lost his or her eligibility to take exams in the same program or a program in a similar field of study.

(3) 1The admissions committee decides whether or not a degree or a qualification is considered equivalent or comparable and thus meets the admission requirements. 2The School of Business Informatics and Mathematics guarantees a consistent procedure, in particular if more than one admissions committee was formed. 3For the recognition of foreign degrees, the recommendations of the Standing Conference of the Ministers of Education and Cultural Affairs as well as cooperation agreements between universities shall be taken into account. 4In cases of doubt, the Central Office for Foreign Education (Zentralstelle für ausländisches Bildungswesen – ZAB) is consulted.

Section 5 – Admissions Committee

(1) 1The School of Business Informatics and Mathematics appoints at least one admissions committee for the preparation of the selection procedure. 2An admissions committee is composed of at least three members. 3The members shall be staff members whose main employer is the university. At least two members shall be university teachers. 4The committee members' term of office is one year. 5They may be reappointed.
Section 6 – Selection Process at the University of Mannheim

(1) If the number of study places in the master's program "Mannheim Master in Data Science" is limited and if there are more applicants than places, the University of Mannheim conducts its own selection process in accordance with the regulations of higher-ranking legislation.

(2) The admissions committee selects potential students based on the selection criteria of section 7 and prepares a ranking. The President shall decide on the candidates to be admitted on the basis of the recommendations of the admissions committee.

Section 7 – Selection Criteria

(1) The following criteria will be taken into account for the decision of the admissions committee:

1. For the final grade or the current average grade according to section 4 subsection 2(1) a maximum of 50 points may be given. The grade, including the first decimal, is translated into points. 50 points may be given for the grade 1.0 and 0 points may be given for the grade 4.0. The points for the remaining grades in between are calculated linearly in steps of 0.1 and rounded. If the higher education institution at which the applicant is pursuing his or her bachelor's degree does not provide the current average grade, the average grade is calculated from all module grades or examination grades weighted in ECTS credits the applicant has achieved in the course of his or her bachelor's program up until the selection process. If the applicant does not provide any proof which may serve as a basis to calculate an average grade, he or she is assigned the grade "4.0" for the purpose of the selection process. If the final grade or average grade is indicated in a grading system which does not correspond to the grading system used for the bachelor's programs of the School of Business Informatics and Mathematics of the University of Mannheim, the admissions committee shall convert the grade.

   2. For professional activities (vocational training, work experience or internships) or experience in the academic sector (publications, work as a student assistant, teaching) proving the eligibility of the applicant for the master's program, a maximum of 10 points may be given.

   3. For a semester abroad during the program of study 5 points may be given.

(2) In order to guarantee a consistent procedure, the School Council of the School of Business Informatics and Mathematics can pass general regulations for the conversion of grades as well as for the consideration of courses, activities, experience, and semesters abroad in accordance with subsection 1(1-3). The admissions committee is bound by these regulations.
PLEASE NOTE:

English translations of Satzungen are intended solely as a convenience to non-German-reading students. Only the German text published in the Bulletin of the President’s Office (“Bekanntmachungen des Rektorats”) is legally binding. In the event of any conflict between the English and German text, its structure, meaning or interpretation, the German text, its structure, meaning or interpretation shall prevail.

(3) ¹In accordance with subsection 1(1-3), the points are added up; the maximum score is 65 points. ²Based on the score all applicants are ranked in descending order. ³In cases where several applicants hold equal rank, section 20 subsection 3 HVVO applies.

Section 8 – Commencement

This amendment becomes effective the day after its announcement in the Bulletin of the President's Office (“Bekanntmachungen des Rektorats”) of the University of Mannheim.

Article 2 of the first amendment as at 15 December 2016 stipulates:
These Regulations will come into effect on the day after their publication in the Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats). During the application process for the fall semester 2017/18 they shall apply for the first time.

Article 2 of the second amendment as at 15 March 2017 stipulates:
These Regulations will come into effect on the day after their publication in the Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats). During the application process for the fall semester 2017/18 they shall apply for the first time.

Article 2 of the second amendment as at 04 May 2018 stipulates:
These Regulations will come into effect on the day after their publication in the Bulletin of the President's Office (Amtliche Bekanntmachungen des Rektorats). During the application process for the spring semester 2019 they shall apply for the first time.
