Alumni@Work 2.0 returns this semester with its event the International Alumni Night. During this informational and networking evening you will have the chance to hear first-hand experiences from various international alumni of the University of Mannheim. The speakers are alumni who came to Mannheim as international degree-seeking students and successfully established themselves in the German labor market after their graduation. They will share their experiences and talk about their transition from student to working life.

- Three 30-minute presentations
- Interesting for international students of all faculties
- Get-together with snacks and beverages afterwards!

Alumni@Work 2.0 is part of the Step by Step Program, sponsored by the German Academic Exchange Service (DAAD) and supported by ABSOLVENTUM, the City of Mannheim the Federal Employment Agency and the Career Network of the University of Mannheim.

When?
Thursday 12 October 2017
Starting at 6:00 pm

Where?
Fuchs Petrolub Hall
Room O 138

Supported by:
alumni@work 2.0 - International Alumni Night — Graduates from two faculties!

Business School

Mariia Kazantceva finished her bachelor studies in Management at the St. Petersburg State University in Russia. In 2016, she earned the Mannheim Master in Management (MMM) degree at the University of Mannheim.

While enrolled at the University of Mannheim, Mariia developed a strong interest in IT topics. Parallel to her studies, Mariia acquired profound IT skills through several extracurricular courses and online trainings.

Mariia is currently working for BTO Research in Munich in the Area of IT Consultancy. Her responsibilities include project portfolio management of over 2000 Projects within more than 30 business units.

School of Business Informatics and Mathematics

Diaa Abdelaziz holds a bachelor’s degree in business Informatics from the German University in Cairo, Egypt. In 2016, he finished his Master’s Degree in Business Informatics at the University of Mannheim.

During his undergraduate studies, he co-founded ‘Tera’, a social media travel start-up. In 2011, he worked as a research assistant at the TUM in a joint project between SAP and IBM.

Diaa has work experience in research, consultancy, sales operations, digital transformations, and founding start-ups. Currently, Diaa is the Executive Assistant to the President of SAP Leonardo Internet of Things & the EVP of SAP. His duties include ensuring the day-to-day operations of the innovation pillar of SAP, supporting customers and meeting with partners globally.

School of Business Informatics and Mathematics

Denys Zaliskyi earned his bachelor’s degree in Computer Science at the Taras Shevchenko National University of Kiev, Ukraine. He then enrolled in the Master of Business Informatics at the University of Mannheim, where he graduated in 2016. Denys is currently studying a second master in Digital Currency at the University of Nicosia in Cyprus.

During his time in Mannheim, Denys did internships at the Fidor Bank in Munich as a software developer, at Bettervest in Frankfurt as a software engineer and at Figo in Hamburg, where he completed his master’s thesis.

Currently, Denys works as a consulting software engineer in the field of Financial Technologies and Crypto Currencies at Kraken Digital Asset Exchange.
